Angled End units are supplied as 3 flat packed wall sections for bolting together on site

## Cross Brace flats

As part of the Grenadier Plankit planter system, galvanised mild steel Cross Brace flats are required to ensure that the planters are tied across the width of the products. As an integral part of the system, Cross Brace flats are supplied where required and are supplied included in the cost of the components.

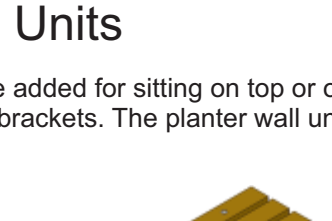

## Optional Bench Units

Optional benches can be added for top or on the side of the planters. The Bexley, 4 slat bench is supplied fully assembled, complete with galvanised mild steel fixing brackets. The planter top units are pre-drilled for bolting the bench brackets.
