UK Street Furniture Designers & Manufacturers

Construction

All Street Design products are designed and manufactured using only quality, durable materials, construction details and fixings, to provide a long-lasting, durable life expectancy.

Assembly

Planters up to 2.8 x 2.8m will be delivered to site fully assembled for off loading and positioning on site. Planters larger than 2.8m will be supplied in sections for bolting together on site.

Materials

Hardwood planters are constructed from FSC®-certified hardwood, from sustainable sources. Softwood planters are constructed using FSC®-certified European redwood that has been pressure treated, for a desired service life of 15 years minimum.

All mild steel fixings will be M10 or M12 size and have a bright zinc plated finish. Planters will be fitted with a geo-textile filter fabric lining, which allows the water to drain through the planter, while retaining the fill material.

Standard finish

FSC®-certified treated softwood and hardwood will be left natural to reduce the need for re-staining and help reduce maintenance costs.

Optional finish

Stained finish is available on request.

Options

Diplomat planters are manufactured to order. Before we can manufacture the planters, we need to know the following:

- plan size and shapes
- heights
- material
- finish
- details of any accessories required

Accessories

To enhance your Diplomat planter and create a product that is suitable for your specific application, you can add from a range of planter accessories.

- Tree anchors
- Adjustable feet
- Watering system
- Integral bench seating
- Internal steel frame
- Pergola structures
- Trellis panels
