MATERIAL FINISHES

Standard finish

FSC treated redwood standard finish

As standard, all FSC treated redwood planters will be supplied with a natural finish. The preservative treatment process will colour the timber a light brown/green.

Aged natural treated redwood

Left to weather naturally, the timber will eventually turn a silver grey colour.

FSC iroko hardwood standard finish

As standard, all FSC iroko hardwood planters will be supplied with a natural finish. Due to the nature of the material and the density of the grain, iroko hardwood is not capable of taking a preservative treatment. Iroko hardwood is a naturally durable material, giving a life expectancy in excess of a treated softwood.

Aged natural iroko hardwood

Left to weather naturally, the timber will eventually turn a silver grey colour.

Optional finishes at extra cost

FSC treated redwood wood optional finish

As an optional extra, the FSC treated redwood can be supplied with a stained finish. This will be applied after the timber treatment process. The standard stain will be 3 coats of Ronseal quick drying water based stain. The standard colour will be teak. Other stains and colours can be applied upon request.

Optional teak stained finish

FSC iroko hardwood optional finish

As an optional extra, the FSC iroko hardwood planters can be supplied with a stained finish. The standard stain will be 3 coats of Ronseal quick drying water based stain. The standard colour will be teak. Other stains and colours can be applied upon request.

Optional teak stained finish

Alternative opaque wood stain finishes

As an optional extra, FSC timber planters can be supplied with an opaque stained finish. Three coats of stain will be applied. If required, RAL colours can be specified.

Optional RAL 7012 opaque stained finish
