UK Street Furniture Designers & Manufacturers

### Construction

All Street Design products are designed and manufactured using only quality, durable materials, construction details and fixings, to provide a long-lasting, durable life expectancy.

# Assembly

Planters up to 2.8 x 2.8m will be delivered to site fully assembled for off loading and positioning on site. Planters larger than 2.8m will be supplied in sections for bolting together on site.

#### Materials

Hardwood planters are constructed from FSC®-certified hardwood, from sustainable sources. Softwood planters are constructed using FSC®-certified redwood that has been pressure treated, for a desired service life of 15 years -in-ground contact.

All mild steel fixings will be M12 or M10 size and have a bright zinc plated finish.
Planters will be fitted with a geo-textile filter

fabric lining, which allows the water to drain through the planter, while retaining the fill material.

#### Standard finish

FSC®-certified treated softwood and FSC®-certified hardwood will be left natural to reduce the need for re-staining and help reduce maintenance costs.

Large natural finish planters in FSC®-certified hardwood

Square natural finish planters in FSC®-certified hardwood

## Optional finish

Stained finishes are available on request.

#### **Options**

Kensington planters are manufactured to order.

Before we can manufacture the planters, we need to know the following:
