

ROCHFORD seating

TECHNICAL SPECIFICATION

Construction

The Rochford all timber benches consist of timber slats bolted onto timber end panels. The timber bench slats are manufactured using FSC®-certified timber. The slats are 120x45mm section. The timber support bearer will be 45x45mm section. The timber end panels are manufactured using 95x45mm and 45x45mm section FSC®-certified timber. The end panels are constructed with an M12 internal threaded bar. Rochford benches can be supplied for above or below ground installation.

Assembly

Where practical, Rochford curved and straight benches and are delivered to site fully assembled for off-loading, ready for installation. Longer benches will be delivered in sections to be bolted together on site.

Dimensions

Plan dimensions:

416 Bench 1800mm long x 416mm overall width

565 Bench 1800mm long x 565mm overall width

Other lengths are available on request.

Overall height (above FGL):

Bench 450mm

Sitting height (above FGL):

Bench 450mm high.

The timber end support panels are manufactured using either FSC®-certified treated European redwood or FSC®-certified hardwood.

Materials - continued

Fixings

All fixings will be mild steel M10 and M12 size, and have a bright zinc plated finish.

Security

Bolts will be countersunk and plugged to prevent unwanted removal.

Options

Rochford benches are manufactured to order. Before we can manufacture the seating, we need to know the following:

- Bench type - 416 or 565
- Bench length
- Curved bench radius
- Material
- Material finish
- Accessories required
- Installation type required

Guarantee

Rochford benches are guaranteed for 15 years. This guarantee is dependant on the product not being misused or abused.

UK Street Furniture Designers & Manufacturers

General specification

Construction

All Street Design products are designed and manufactured using only quality, durable materials, construction details and fixings, to provide a long-lasting, durable product with a good life expectancy.

Assembly

Unless otherwise stated all Rochford benches will be supplied fully assembled and delivered complete, ready for installation.

Timber policy

All FSC® Certified timber products are manufactured using materials obtained from growers who operate under the Forest Stewardship Council® (FSC®).

Materials

Hardwood products are constructed using FSC®-certified hardwood, from sustainable sources. Softwood products are constructed using FSC®-certified European redwood that has been pressure treated, for a desired service life of 15 years in-ground contact.

All mild steel fixings will be bright zinc plated.

Finishes

As standard, the FSC®-certified timber slats will be left natural to reduce the need for re-staining and help reduce maintenance costs. Optional stained finish is available upon request.
